## High Spin - 300 G - 530 G

## W5180H

Suspended frame, drum volume  
microprocessor Compass Pro.

### Key benefits for W5180H

---

#### Economy, performance, time: the perfect balance

With the wash triangle, perfect balance between economy, wash performance and time, depending on the customer needs. Finding the perfect balance between low water and energy consumption, whilst maximizing wash results with shorter processing time.

#### Tailored to your needs

The range comes with a wide selection of options and accessories to ensure that they meet the specific needs of your business, because every laundry is different.

This product comes with

#### User-friendly

Designed specifically to ensure easy access to panel openings, easy-to-use panels

#### Economical

We provide optimized economy with reduced energy consumption, Power Balance™, choice of control panels and low-cost installation.

Compass Pro® microprocessor offers.

AS – Automatic Savings.

Extremely low water and energy consumption

Four compartment detergent box for manual dosing of powder or liquid detergent

High extraction force for efficient dewatering

Door with gasket and strong hinges built for heavy duty operation

Stainless and galvanized steel vital parts for high degree of protection

PowerBalance™ .
